GLOBAL SECURITY RESOLUTIONS; COMPANY ANNOUNCEMENTS. NEWLY FORMED DHS TSA ARMED SECURITY OFFICERS (ASO); NEWLY APPOINTED DIRECTOR OF BUSINESS DEVELOPMENT, ANN MARIE CASSAR.

June 19, 2023 – New York, NY – Global Security Resolutions LLC (GSR) is a professional firm based in New York City providing national and global security management services to corporate, private and government sector entities.

Services include investigations, due diligence, analytical support, background screening, threat assessment, crisis management, special event security, security risk assessments, risk mitigation and all phases of security assessments. Our credo is to professionally identify, advise and resolve.

GSR is pleased to announce its newly expanded aviation security service to provide TSA-certified Armed Security Officers (ASO's) on flights to and from Ronald Reagan National Airport (DCA).

ASO's are certified and credentialed by the U.S. Department of Homeland Security (DHS), Transportation Services Administration (TSA) and U.S. Federal Air Marshals Service (FAM).

There are a number of firms that offer limited TSA Certified ASO's services, but few with the professional experience, expertise and flexibility offered at GSR. We have a professional team of TSA Certified ASO's available at all times.

The TSA established this program after the September 11, 2001, terrorist attacks. U.S. Federal aviation regulations required that any general aviation flight arriving or departing from Ronald Reagan National Airport (DCA) must have an ASO on board. ASO's can continue to accompany travelers continuing to all destinations within the USA. For this service, GSR will be utilizing trained, experienced former U.S. Federal law enforcement agents as ASO's. We at GSR can meet all our client's security requirements. We can provide professional executive and dignitary protection detail teams or solo operations.

To further enhance this program, GSR is also pleased to announce the addition of a new member to the GSR team, Ann Marie Cassar. Ann Marie has joined GSR as Director of Business Development to manage this ASO program. With over a decade of experience in the aviation sector, we are thrilled to welcome Ann Marie to our team to launch this ASO program. Prior to joining GSR, Ann Marie was employed for many years as an Executive at Freestream Aircraft USA Inc. She reported directly to Rebecca Posoli-Cilli. Her leadership and decision-making qualities have gained her tremendous respect among the Corporate/Charter Aviation sector and is a well known and highly regarded professional recognized in the Aviation Community and other business affiliated sectors.

Ann Marie will be working with our clients to ensure a safe and secure flight with our ASO program to ensure all details are met with the highest professionalism.
